Lisa,

I went through the special mailbox we have for fracking notifications for OOOO and OOOOa. Attached is the list of companies who submit through that venue. Unfortunately many of our files are by lease name. Also attached is an annual report for one of them.

Thanks! Just to update you on my progress – I have currently have 3 responsive documents. I worked with the records Center, and they have compiled a list of about 400 facilities that had new files created between August and November. Im now going through the list to see if there are any which may be subject to the rule.
